**Event Awards**

With an increasing number of complete teams taking part the events were once again hotly contested. This week at county level we had entries for all 5 age groups. As last week the winning schools from the School Sport Partnership/Network area were put forward were put forward to the county final (following our usual model for our events). As we get more schools involved we hope to be able to have award categories for different size schools. To assure you of the scoring process teams are ranked for each challenge to ensure their is no bias if one challenge skews the result. We will not be releasing scores as the emphasis is on taking part and enjoying the challenges and the pupils have their scores to improve their Personal Best.
